The dust control appears to have expired in 2015.

I also found wells, Huxtable #10-#14 which expired in 2011 and were for domestic use and were in the NENE of Section 28, 32N, 72W.

These are records found in the State Engineer's Office and Board of Control records as of October 31, 2025, and may or may not reflect the actual situation on the ground. Failure to use water for five (5) consecutive years when water is available may constitute grounds for forfeiture of the water right.
